## Symposium committee, sponsors and exhibitors

### Symposium organising committee

Dr Colin Stirrat (Chair)

Dr Amanda Hunter

Dr Gajen Kanaganayagam

Dr Kirsten Kruszewski

Dr Rong Bing

Dr Trisha Singh

The Federation of the Royal Colleges of Physicians of the UK runs a Continuing Professional Development (CPD) Scheme for all post-training physicians. Please note it is your responsibility only to claim credits for the hours you attend.

CPD ID Code: 146881

CPD Credits: 6

### CPD certificates and feedback

The CPD sign-in register is now online and is combined with the symposium feedback form.

- Please note that in order for us to issue CPD certificates, we require participants to complete our online feedback survey and you should have received an email containing a link to your individual feedback form. If you have not received this please contact: T.Gonzalez@rcpe.ac.uk
- There is an option to save your feedback as you complete it during the day and finish your responses later. This is done through the 'Finish later' button which is at the bottom of every page of the survey.
- Please note that the 'Finish later' feature supplies you with an updated individual link which contains your previous answers. These are not accessible to our administration team so please ensure that you store this link as otherwise you will have to begin your survey again.
- The sign-in and feedback form will be open for 28 days after the event, **closing at midnight on Thursday 7 December 2023**. Electronic certificates will be issued shortly after that date via email. It will not be possible to issue certificates to delegates who do not complete the form by this date as it is your confirmation that you attended – so please make sure you do. Please note that it is not possible to download a certificate directly from the online feedback survey platform.

### Asking questions and interactive sessions

- You can submit questions to the speakers during the talks using 'Slido.com' - we will be using interactive software, 'Slido', so that everyone can ask the speakers questions and participate in any polls and case discussions.
- Additionally, if you are attending at the College there are microphones for you to use in the auditorium.
- On your mobile, tablet or computer, go to [slido.com](https://www.slido.com).
- Enter the event code: **#rcpeCardio23**
- This code will be used throughout the day for all presentation.
- When delegates send questions to speakers, your device will display the delegate questions.
- You can 'like' any delegate questions submitted, questions will rearrange based on how many 'likes' they have, highlighting to the Chair popular questions.
- Any questions not answered on the day will be responded to retrospectively and posted on <https://events.rcpe.ac.uk/events/symposia>.

# Symposium committee, sponsors and exhibitors

## Social media

The College encourages online discussion and the use of social media. Please feel free to participate – the Twitter hashtag for this event is **#rcpeCardio23**

To participate on twitter, please login to your account and just type the event hashtag into the search bar of your browser and all tweets with the hashtag will be displayed. The College has its own Twitter account @RCPEdin and this is usually highly active during symposia and a useful summary of key messages from the day.

## On demand viewing

The presentations will be available to view 2 days after the symposium and remain available for 28 days after the event, **closing at midnight on Thursday 7 December 2023**. RCPE Fellows and Members will be able to access selected presentations on the RCPE Education Portal for a further period.

*RCPE Symposium held on Thursday 9 November 2023*

### Sponsors & Exhibitors

This symposium is supported by the following exhibiting companies who have purchased a hybrid exhibition stand space. It should be noted that these companies have played no part in planning the symposium and the Royal College of Physicians of Edinburgh does not endorse any commercial products. We are grateful to our sponsors for supporting this event.

- Alnylam UK Ltd
- AstraZeneca UK Ltd \*
- Daiichi Sankyo Ltd
- Janssen-Cilag Ltd

Health professionals and NHS managers are invited to visit the company stands during the breaks.

*\*AstraZeneca has provided a sponsorship towards this independent Programme. AstraZeneca has had no editorial input into or control over the agenda, content development or choice of speakers, nor opportunity to influence.*

To facilitate compliance with UK law, and the ABPI Code of Practice, prohibiting companies from promoting prescription-only and certain other medicines to the public, the stands have been set up in a clearly defined area of the conference centre. As products are licenced for the UK only, the exhibition space is only open to UK Healthcare professionals\*\*, not to medical students, our international delegates or members of the public. Thank you.

*\*\* The ABPI Code definition of a healthcare professional is members of the medical, dental, pharmacy and nursing professions and any other persons who in the course of their professional activities may prescribe, purchase, recommend or supply a medicine.*

# Upcoming Events

## Autumn 2023

Throughout this academic year we will be delivering our Education Programme as a mix of hybrid, in-person and online. Our hybrid events give you the option to meet in the College for some face-to-face learning and conversation, or to view online from home. Most of our events and CPD/feedback surveys are open for 28 days after the event, so that you can catch-up at your convenience and from any time zone. Alongside our popular Evening Medical Update programme we have our suite of speciality symposia and some new hot topics events to look out for.

### Education Portal

Material from these events is made available beyond the on-demand period to Fellows, Members and Associates on the College's Education Portal, where you'll also find hundreds of hours of other clinical and non-clinical content.

[learning.rcpe.ac.uk](https://learning.rcpe.ac.uk)

The Royal College of Physicians of Edinburgh's education programme continues with:

### November

THU <b>16</b>	Online International Medical Update <b>RCPE Pakistan: Updates in Clinical Medicine</b>	IMU
